SUMMARY

- Project and operations manager with experience in agricultural drone development, field services and material management in server manufacturing.
- At ADT Aviation, resolved supplier issues, improved working processes and coordinated hardware, software and operations teams. Ran stakeholder meetings and followed up on decisions.
- Built and trained an operations team at DEPAR Aviation, and worked directly with customers through demonstrations and training.

SKILLS

Project Planning · Product Development · Team Leadership · Stakeholder Communication · Supplier Coordination · Process Improvement · Budgeting & Cost Estimation · Customer Demonstrations & Training · Business Development Support

PROFESSIONAL EXPERIENCE

Team Lead - Material Management

Supermicro | 's-Hertogenbosch, Netherlands

Jan 2026 – Sep 2026

- Led team activities in material management at Supermicro.
- Also worked in rack assembly and supported other operational areas alongside material management responsibilities.

R&D Project & Operations Manager

ADT Aviation | Istanbul, Turkey

Jan 2024 – Apr 2025

- Managed agricultural drone development from planning to testing and customer demonstrations, working with hardware, software and operations teams.
- Tracked development progress, resolved supplier issues and coordinated component sourcing.
- Ran stakeholder meetings, presented project updates and followed up on decisions. Supported discussions with potential solution partners.
- Prepared budgets and cost estimates, and improved how teams shared requirements and organised testing.

Operations Project Manager

DEPAR Aviation | Hatay, Turkey

Mar 2022 – Jan 2024

- Built and trained the field operations team, organised assignments and schedules, and prepared operational cost plans.
- Improved day-to-day workflows and field planning. Promoted to Manager within three months.
- Worked directly with customers, demonstrated agricultural drone services and delivered training.

EDUCATION

B.A. Political Science & International Relations | Dumlupinar University

CERTIFICATIONS AND TRAINING

Professional Scrum Master I (PSM I) | Scrum.org

ACHIEVEMENTS

- Completed a six-month development roadmap in five months at ADT Aviation.
- Expanded seasonal service coverage from 300 to 3,200 hectares at DEPAR Aviation through team development and better field planning.
